EDUCATION

Master of Science (MSc) in Cyber Security
Nigeria Defence Academy, Kaduna
Expected: December 2025

Bachelor of Technology (BTech) in Cyber Security
Federal University of Technology, Minna
2015 – 2020

EXPERIENCE

Lead Fullstack Engineer
AI Global Mart Ltd, Abuja
January 2023 – September 2025

- Designed and developed the company's e-commerce frontend using Next.js and Tailwind CSS.
- Developed a brand website that enhanced company visibility and led to a 15% increase in client inquiries.
- Established a contact platform that increased collaboration opportunities by 25%.
- Collaborated with backend team to integrate REST APIs.

Frontend Developer
National Agency for Science and Engineering Infrastructure (NASENI), Abuja
January 2022 – September 2023

- Led the redesign of NASENI's internal dashboard using React and Next.js, reducing load times by 40% through code splitting and optimized data fetching.
- Implemented responsive design principles that increased mobile user engagement by 25%.
- Collaborated with security team to conduct vulnerability assessments on web applications.

IT System Administrator & Frontend Developer
Manpower Development Institue, Dutse
January 2021 – September 2022

- Taught HTML/CSS/JavaScript to 50+ students, with 85% achieving certification in frontend development.
- Maintained LAN/WAN infrastructure, ensuring 99.8% uptime for critical educational platforms.
- Managed on-premises server room , performing network monitoring via Wireshark to detect anomalies and mitigate threats.

PROJECT

Teacher Attendance App
React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a full-stack web application to streamline teacher attendance tracking, enabling secure checkin/out, profile management, and admin reporting for educational institutions.
- Designed a Node.js/Express backend with MongoDB Atlas, using JWT for authentication and Nodemailerfor password resets
- Built a responsive React.js frontend with Tailwind CSS, integrating Cloudinary for profile picture uploads.

- Implemented protected routes and role-based navigation for teacher/admin dashboards, enhancing security and UX.
- [GitHub Repo](#) | [Live Demo](#)

Elite Chef (AI-Powered Recipe Generator)
React.js, Hugging Face API, Mistral AI

- Developed a web app that generates recipe using Mistral-8x7B via hugging face's inference API.
- Implemented dynamic ingredient management with React state and form handling.
- Design a markdown-to-HTML rendering system for clean recipe presentation.
